

Mohamed Elshahat Elshahawi

FrontEnd Developer

mahamed.elshahat55@gmail.com | 01065560657 | Mansoura | LinkedIn | GitHub | Portfolio

PROFILE

Front-End Developer with **+2 years of experience** in building responsive, user-friendly websites and web applications. Professional in **HTML, CSS, JavaScript**, and modern frameworks like **React / vue**. Skilled in transforming design wireframes into high-quality code, optimizing performance, able to effectively self-manage during independent projects, and collaborating with teams to deliver seamless user experiences .

EDUCATION

Im a Student in **leve 3 in Computer Science in Mansoura University in sectin IT** and computer science including programming, **algorithms, data structures**, and web development. gained practical skills through internships, and collaborative projects. Proficient in multiple programming languages [**Python, C#**] and experienced with real-world IT systems and problem-solving.

09/2022 – present
Mansoura, Egypt

EXPERIENCES

Front-End at AZZRK 08/2024 – 10/2024
Talkha, Mansoura

The internship allowed me to refine my problem-solving skills and work within a dynamic team environment. Overall, my experience at Azzrk was invaluable in buiding both my technical and collaborative abilities

SKILLS

- General : HTML - CSS - JavaScript -TypeScript - SASS - OOP
- Library : JQuery - Bootstrap - Material UI
- Frameworks : TailwindCSS - React.JS - ReactRedux - Vue.JS - Next.JS - TanStack
- DevOps : Git - github

PROJECTS

Q-prep  01/2025 – 05/2025
prepare your self to interviews

Built a comprehensive web platform designed to help developers **prepare for technical interviews** across multiple tracks including **Frontend, Backend, Mobile, Data Analysis**, and **Cyber Security**.

Key Features:

- Categorized interview questions by track and technology .
- Tech Stack:
 - **Frameworks & Styling** : React || Tailwind CSS || Material UI || Emotion || React Icons || React Syntax Highlighter
 - **Animations**: Framer Motion || AOS || Lottie Animations || tailwind-scrollbar
 - **Utilities**: Axios || Fuse.js || React Toastify || React Spinners || SignalR
- Three difficulty levels: **Beginner, Intermediate, Advanced**.

- Interactive **Mini Quizzes (MCQ)** to assess knowledge.
- **Save questions** for later review and **submit custom questions** via a form for admin approval.
- Integrated a smart **AI chatbot** for real-time Q&A.
- Dedicated **Community groups** per track for discussion and knowledge sharing.
- Developed a secure and full-featured **Admin Dashboard** with content moderation capabilities.

Fashion E-com

Fashion Ecommerce Project

This is a modern fashion e-commerce frontend where users can browse products by categories like Men, Women, Kids, Babies, and Sportswear. Users can add items to their cart or wishlist, place orders, and track their order status – all in a smooth, responsive UI.

Tech Stack:

- **Frameworks:** React-Vite
- **Libraries:** Redux Toolkit || Redux Persist || React Hook Form || Zod || json-server-auth || Lottie React
- **Styling:** Bootstrap || CSS
- **Animation:** Lottie React
- **Tooling:** TypeScript || Vite Plugin Paths (like @/components/...).

ReelPath

DEPI Graduation Project

ReelPath Movie Recommendation System is a full-stack movie discovery platform designed to provide users with an intuitive and engaging way to explore, search, and manage their favorite films. Built with modern technologies, the application offers seamless navigation, personalized recommendations, and secure user authentication.

Core Features:

Explore movies by Trending, Top Rated, and Popular categories
 Filter easily by genre
 Instant search with live results
 Personalized watchlist management
 Detailed movie pages (poster, rating, release date, synopsis)
 Fully responsive design for all devices
 Secure login & signup using JWT
 Contact Us form for user feedback
 Smart recommendations tailored to user preferences

Full-Stack Portfolio (React & Node.js)

Developed a dynamic portfolio web application using React for the frontend and Node.js with Express for the backend. The platform allows me to add, edit, or delete projects through a secure and user-friendly admin panel without modifying the code manually. Projects are stored and managed via a connected database, ensuring scalability and efficient content updates. This solution showcases both frontend and backend skills, including RESTful API integration, authentication, and responsive UI/UX.

- **Home:** A brief introduction about me.
- **About:** show my Education and Internships
- **Skills:** Categorized into languages, libraries, frameworks, and state management.

- **Projects:** A showcase of my previous work with details and technologies used.
- **Contact:** Ways to reach me via email or social platforms.

Cryptocurrencies [↗](#)

a website for a cryptocurrency focusing on real-time price tracking and news updates

Travel [↗](#)

Travel website now you can book your ticket to travel for any country easily and from home

XO [↗](#)

Challenge your friends classic two-player game, where the goal is to mark three consecutive spaces in a 3x3 grid with X or O

COURSES

Digital Egypt Pioneers Initiative (DEPI) [↗](#)

10/2024 – 05/2025

The **React Diploma at DEPI (Egypt Digital Pioneers Initiative)** is an advanced program designed to equip developers with in-depth knowledge of React.js and modern front-end development practices. It covers key concepts such as component-based architecture, state management (Redux, Context API), React Hooks, performance optimization, and integration with APIs. The diploma focuses on practical, real-world applications, enabling participants to build dynamic, responsive, and high-performance web applications.
